Summary

Passionate Developer with expertise in **building web applications, creating APIs, and crafting seamless user experiences**. Skilled in **problem-solving, responsive design, and optimizing performance**. Basic knowledge of **Figma** for UI/UX design.

Education

Bachelor of Technology (CSE)   **2021-2025**

Phonics Group of Institutions, Roorkee (Uttarakhand)
Uttarakhand Technical University

Intermediate   **2020-2021**

SF DAV Public School , Muzaffarnagar
Central Board of Secondary Education

Projects

Internshala Clone

Developed a responsive clone of Internshala using **HTML**, **CSS**, **JavaScript**, **Bootstrap**, and **PHP**. And

This code is available on GitHub:

- User authentication (login and registration).
- Interactive and responsive design for all devices.
- Backend integration for storing user data using PHP and a MySQL database.
- Smooth navigation with Bootstrap components and custom JavaScript enhancements.

Virtual Dashboard

The Virtual Dashboard demonstrates my proficiency in creating a comprehensive dashboard using React.js with MongoDB. It showcases my skills in Node.js development, API integration, frontend/backend development, and deployment. This project highlights my ability to build robust and user-friendly applications that provide valuable real-time information to users. The code is available on GitHub.

Technical Skills

- **Programming Languages:** Python, Data Structures & Algorithms, Java, SQL, PHP.
- **Frameworks:** Node.js, Express.js, React.js, HTML/CSS, Bootstrap.
- **Databases:** MongoDB, MySQL.
- **Tools:** VS Code, Microsoft Office, REST API, **Figma (Basic).**
